

Come and gone

It makes you wanna run
Feel like you`re under gunned
It`s never what its seems to be

You held it in your hand
A ticket to the end
Guess we`ll have to wait and see
Oh wait and see

So long I do believe that it`s gone, how do you feel
They said that we could find it
Out there somewhere, but somebody out there is saying its come and gone

Wave as you`re passing by
Remember you and I
So would you do it over again?

Dressed up in confidence
In every circumstance
Nothing to show for where you`ve been
Oh, where have you been

So long I do believe that it`s gone, how do you feel
They said that we could find it
Out there somewhere, but somebody out there is saying its come and gone
