

Let Me Waste Your Time

Your eyes are full of worry, tomorrow's on your mind
I can see your heart is heavy, I could feel the pain you hide
You're not yourself at all, but you're safe behind these walls
Slow down and breathe, slow down with me

Chorus

Let me waste your time
I know you've got a lot to do
So let me clear your mind
What have you got to lose
Relax, it'll be good for you
I'll be good to you, baby
Just close your eyes
Let me waste your time

We don't have to talk about it, you don't have to say a word
Let me hold you in the silence we can watch some candles burn
You're gonna love the way it feels, when you slip into this dream
Slow down and breathe, slow down with me

Chorus

Let me waste your time
I know you've got a lot to do
So let me clear your mind
What have you got to lose
Relax, it'll be good for you
I'll be good to you, baby
Just close your eyes
Let me waste your time
