

Nothing But The Music

I remember when the beat was king, when people
used to dance allnight
What happened to the melodies I knew, the ones
that used to getme high
Take away all of the camera clicks, the mirrors and
the cloud ofsmoke
Take away all of the fancy cars and all the rock and
roll ego's

Chorus

There's nothing but the music, there's nothing but
the music
There's nothing but the music, there's nothing but
the music

I wanna feel the way I used to feel, maybe I should
close my eyes
And trust the rhythm of a beating heart, forget about
the worldoutside
Rip the poster from the alley wall, and burn all of
your magazines
Wash the glitter and the make up off and see what's
hiding underneath

Chorus

There's nothing but the music, there's nothing but
the music
There's nothing but the music, there's nothing but
the music
