

On my mind

I've got so much to tell you, I don't know where to start
I wish you could be here, cause it's just way to hard
To explain what I'm seeing out of my second story window
Hope you know you're on my mind

Chorus

You're on my, you're on my mind, you're always on my mind

The city's sleeping, but I'm wide awake tonight
It's been raining, I love the way the streetlights
make the stones look like diamonds
From my second story window
Hope you know you're on my mind

Chorus

You're on my, you're on my mind, you're always on my mind

Bridge:

It just breaks my heart
That we're so far apart

Chorus

You're on my, you're on my mind, you're always on my mind
