

Run away

I get sooo sick of myself
Never will be someone else
I think about changing
I don't know if I can
No matter how hard I try, here I am

Chorus

I can't run run run away from me

Always one foot in my mouth
All the wrong words keep falling out
I wanna be a hero
I want to be loved
nothing I do is good enough

Chorus

I can't run run run away from me

Is there anybody outthere
To keep me company
If you're crazy and you don't care
Sing it with me

Chorus

I can't run run run away from me
