

Shadows

Just like the birds, the love and the leaves, we're only here for a season

Everyone stays as long as they can, hoping they might find a reason

All of the boys and the girls in the streets are kicking up dust with the soles of their feet

Just looking for a way out, just looking for a way out

Chorus

Shadows get lost in the dark, that's what we are, that's what we are
Shadows get lost in the dark, that's what we are, that's what we are

How can I feel like I'm always alone in a city with millions of people
Am I believe that the only way out can be found in a Roman cathedral

I'm only trying to make a connection, but kissing the cheek is a coward's confession

I'm looking for a way out, I'm looking for a way out

Chorus

Shadows get lost in the dark, that's what we are, that's what we are
Shadows get lost in the dark, that's what we are, that's what we are

Where am I, where am I, where am I, where am I going

Where am I, where am I, where am I, where am I going

Chorus

Shadows get lost in the dark, that's what we are, that's what we are
Shadows get lost in the dark, that's what we are, that's what we are
