

Wonderdrug

The gras seems greener, the sky looks bluer
The sun shines just for me

My heart beats stronger, don`t need no doctor
I found a good remedy
I can`t get enough, can`t get enough

Chorus

It`s a wonderdrug, your love it`s all my body needs
It`s a wonderdrug, your love, it`s the only cure for me
It`s a wonderdrug

I love this feeling, am I dreamin
I think I take a walk outside

Church bells ringing, childrens singing
I feel like I can fly
I can`t get enough, can`t get enough

Chorus

It`s a wonderdrug, your love it`s all my body needs
It`s a wonderdrug, your love, it`s the only cure for me
It`s a wonderdrug

Holding me, loving me, kissing me, touching me
All night
Holding me, loving me, kissing me, touching me
It feels right, you`re my
